

Legislative laws that were passed this Spring will become effective on August 16, 2013, unless there was an emergency clause.

NOTE: The increase in procurement thresholds to \$10,000 and \$50,000 will take effect August 16, 2013. These threshold increases do not include those for public works projects.

OSP is currently working on rule promulgation and policies for the new laws. They will be posted to the listserv upon completion.
